

Gloria Gu

AI & Educational Technology Specialist — Computer Science Educator

Email: user@example.com | Phone: +852 6905 5427 | Location: Hong Kong SAR

Languages: Uyghur (Native) · Chinese/Mandarin (Native) · English (Fluent)

PROFESSIONAL SUMMARY

Trilingual educator-technologist with 3+ years teaching A-Level and IGCSE Computer Science / IT at an international school, combined with experience designing AI & STEM curricula and contributing to educational-technology solutions. Currently pursuing an MSc in Artificial Intelligence & Educational Technology at The Education University of Hong Kong. Seeking computing-education and EdTech roles in Hong Kong.

EDUCATION

MSc, Artificial Intelligence & Educational Technology

The Education University of Hong Kong | 2026–2027 (Expected)

BEng, Communication Engineering

Zhejiang Sci-Tech University | 2016–2021

PROFESSIONAL EXPERIENCE

Information Technology Teacher & Pastoral Advisor

Greentown Ivy International Academy — Hangzhou, China

September 2023 – June 2026

- Teach A-Level and IGCSE IT / Computer Science — web development, Python, JavaScript, SQL, machine learning, and VR/AR — to international-track students.
- Founded and lead project-based AI learning through the "Fun with AI" elective and AI Fun Club, where students build interactive applications and train machine-learning models (Teachable Machine) to solve real-world problems.
- Designed "Guardian Action," an 18-lesson (5-unit) school-based STEM curriculum integrating hardware modification, voice-recognition programming, and disaster-scenario simulation.
- Coach students for the ACSL and CALICO computing competitions.
- As Pastoral Advisor for 20 students, run a student–teacher–parent communication loop covering pastoral care, liaison with subject teachers, and college-application guidance.
- Class outcomes (2025–26): 1 Cambridge offer, 1 Imperial College offer, 1 LSE, 8 UCL, 2 Hong Kong offers (CUHK / PolyU); all students admitted to QS Top 100 universities; 2 UC Berkeley competition awards.

Training Programme Coordinator

School of Public Affairs, Zhejiang University — Hangzhou, China

September 2022 – May 2023

- Coordinated executive training programmes for 500+ professionals.
- Managed the learning management system (LMS) and designed digital workflows for programme delivery and evaluation.

K-12 English Instructor

New Oriental Education — Hangzhou, China

February 2021 – April 2022

- Taught 200+ students using multimedia tools and interactive technology.

SELECTED PROJECT

IvyCampus — Smart Campus Platform

- Contributed to the design and system framework of a smart-campus platform (subsequently deployed at Greentown Ivy), defining requirements and AI-assisted workflows for teaching and school operations.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

AI / Machine Learning: Machine Learning, Generative AI (LLM), Teachable Machine

EdTech & Design: Curriculum design, Project-based learning, LMS, VR/AR

CERTIFICATIONS & QUALIFICATIONS

- Teacher's Qualification Certificate — Ministry of Education, P.R. China (2023)
- AI & STEM Teacher Training — Greentown Education Group (2025)
- AI For Everyone — DeepLearning.AI / Coursera (in progress)
